

ENLIGHT Student Network Conference 2026

Digitalisation in European Universities: Efficiency, Sustainability and the Human Touch of AI
27-28 March 2026 – Tartu, Estonia

Dear students and scholars,

With great enthusiasm, the ENLIGHT Student Network invites you to our annual flagship event — a *by-students, for-students* conference that connects engaged minds across Europe. It is a platform for exchange, creativity, and collaboration, empowering participants to inspire change within their universities and beyond.

Following Göttingen 2025, where we explored The Future of Sustainability and Inclusivity, we now turn our focus to the next major force shaping European higher education: Digitalisation. This year's theme invites students and scholars to reflect on how digital progress can advance learning and collaboration while keeping inclusivity and humanity at the core.

Our 2026 host, the University of Tartu, stands at the forefront of digital innovation. As Estonia's intellectual capital and the cradle of many national e-governance solutions, Tartu exemplifies how technology and education can work together to build smarter, more connected societies.

We warmly welcome participants passionate about digitalisation and AI in education to propose innovative workshop ideas. Travel and accommodation expenses will be covered by your ENLIGHT university.

Date	News
December 2025	Call for workshop proposals
Mid-January 2026	Notification of workshop selection results
Beginning of February 2026	Programme announcement, travel and accommodation guidance
Mid-March 2026	Final practical information
26-29 March 2026	Travel and conference

For any questions or guidance, feel free to reach out to your ENLIGHT Student Representatives at your home university. We will gladly support you throughout the process.

We look forward to seeing you in digital-forward Tartu!

Julen Etxegia (Photographer and Social Media Manager) , Edgard Campos (Head of Governance) and Joan Arregui (Finances and Governance)
